-

CLAIMS

- 1. A method comprising steps of:
- 2 receiving an incoming call from a first telephone number;

incrementing a variable indicating a number of calls received from said first

4 telephone number;

prompting a user to save said first telephone number when said variable is

6 equal to or greater than a threshold number;

storing said first telephone number in an address book.

- 2. The method of claim 1 wherein said prompting step comprises audibly prompting said user.
- 3. The method of claim 1 wherein said prompting step comprises presenting text on an LCD display.
- 4. The method of claim 1 wherein said threshold number is set by a manufacturer.
- 5. The method of claim 1 wherein said threshold number is set by said 2 user.
- 6. The method of claim 1 further comprising a step of asking said user to record a voice tag corresponding to said first telephone number.
- 7. The method of claim 6 wherein said asking step comprises audibly asking said user.
- 8. The method of claim 6 wherein said asking step comprises presenting text on an LCD display.

2

- 9. The method of claim 6 further comprising a step of saving said voice tag corresponding to said first telephone number in a voice tag file.
- 10. The method of claim 6 further comprising a step of receiving said voice2 tag corresponding to said first telephone number.
- 11. The method of claim 10 further comprising a step of comparing said voice tag to a quality parameter.
 - 12. The method of claim 11 further comprising a step of making a request to said user to record said voice tag in a different location.
 - 13. The method of claim 12 wherein said step of making said request comprises making said request audibly.
 - 14. The method of claim 12 wherein said making step comprises presenting text on an LCD display.
 - 15. The method of claim 10 further comprising a step of saving said voice tag corresponding to said first telephone number in a voice tag file.
- 16. The method of claim 1 further comprising a step of receiving a voice tag
 2 corresponding to said first telephone number.
- 17. The method of claim 16 further comprising a step of saving said voice 2 tag.
 - 18. An apparatus comprising:
- a receiver configured to receive an incoming call from a first telephone number;
- 4 a CPU configured to increment a variable indicating a number of calls received from said first telephone number;

12

- a user interface adapter configured to prompt a user to save said first telephone number when said variable is greater than a threshold number;
- 8 a memory module configured to store said first telephone number in an address book.
- 19. The apparatus of claim 18 wherein said user interface adapter causes a
 2 speaker to prompt said user to save said first telephone number.
- 20. The apparatus of claim 18 wherein said user interface adapter causes an
 LCD display to prompt said user to save said first telephone number.
 - 4 21. The apparatus of claim 18 wherein said threshold number is set by a manufacturer.
 - ⁶/₂₂. The apparatus of claim 18 wherein said threshold number is set by said user.
 - ' 23. The apparatus of claim 18 wherein said memory module is further configured to store a voice tag corresponding to said first telephone number.
- ^φ 24. The apparatus of claim 23 wherein said user interface adapter is further
 configured to prompt said user to record said voice tag corresponding to said first telephone number.
- The apparatus of claim 23 further comprising a microphone configured to receive said voice tag corresponding to said first telephone number.
- 26. The apparatus of claim 25 wherein said CPU is further configured to save said voice tag corresponding to said first telephone number.
- 27. The apparatus of claim 26 wherein said CPU is further configured to compare said voice tag to a quality parameter.

6

- 28. The apparatus of claim 27 wherein said user interface adapter is further configured to prompt said user to record said voice tag in a new location.
 - 29. A method comprising steps of:
- receiving a voice tag corresponding to a first telephone number, said voice tag having a recording quality;
 - prompting a user to re-record said voice tag when said recording quality does not satisfy said quality parameter;

saving said voice tag.

- 30. The method of claim 29 wherein said prompting step comprises prompting said user audibly.
- 31. The method of claim 29 wherein said prompting step comprises presenting text on said LCD display.
- 32. The method of claim 29 further comprising a step of saving said first telephone number before said step of receiving.
- 33. The method of claim 29 further comprising a step of asking said user to utilize a voice dialing feature.
- 34. The method of claim 33 wherein said asking step comprises audibly asking said user.
- The method of claim 33 wherein said asking step comprises presenting
 text on an LCD display.
